

ANXIETY DISORDERS

Divorce, family breakdown, violence in society and the media, has produced a “shell shocked” generation of kids suffering from anxiety!

Attend this experiential 2-day workshop and learn how you can “connect” with anxious children and inspire them to practice new self-regulation skills. You will learn how to help parents (“bulldozers,” “helicopters” and “snowplows”) and schools gain confidence, gratification and success in helping their most anxious kids.

To increase your effectiveness with the various manifestations of child anxiety, **Dawn will address each of the following disorders with case examples and clinical vignettes:**

- Separation Anxiety Disorder
- Panic Disorder
- Generalized Anxiety Disorder
- Obsessive-compulsive disorders (including skin picking and hair pulling)
- Social Anxiety Disorder/Selective Mutism
- Specific phobias
- Trauma- and Stressor-related disorders

Emphasis will be on creative psychotherapy involving insight-oriented, cognitive-behavioral, biological, mindfulness, and family systems interventions.

OBJECTIVES

1. Incorporate motivational therapeutic activities into your practice to improve client engagement in treatment.
2. Implement structured clinical interviewing strategies to aid in developing comprehensive treatment plans.
3. Summarize the “3 ingredient framework” of how anxiety develops in children to assist with assessment and treatment planning.
4. Analyze the efficacy of prescription drugs as compared to complementary medicine for treatment of anxiety symptoms in children.
5. Implement a three-step skill building model for stress management among young clients.
6. Evaluate exposure therapy interventions for effective treatment of OCD, separation anxiety, social anxiety and phobias.
7. Design effective strategies to decrease the stress response in kids with learning disabilities to improve information processing, listening skills, and comprehension.
8. Implement calming techniques to reduce overall anxiety, such as mindfulness and yoga, to reduce fight or flight response and simultaneously engage the relaxation response.
9. Evaluate the impact deep breathing exercises have on anxiety to enable task completion in children with ADHD.
10. Utilize specific anxiety techniques to minimize the ruminative nature of obsessive thoughts that often precede dysfunctional compulsive behaviors.
11. Teach clients to engage the parasympathetic nervous system to create new neuropathways to reduce hyper arousal and decrease maladaptive behaviors.
12. Implement clinical strategies to decrease symptoms of pervasive separation anxiety in children and adolescents.

DAWN DEPASQUALE, MA, LMHC, is the founder, CEO and clinical director of Bell Mental Health Associates in Swansea, Massachusetts. She holds a Master’s degree in Clinical Psychology through the University of Massachusetts at Dartmouth, a program approved by the American Psychological Association (APA). Because of her effectiveness in the area of panic cessation, Ms. DePasquale is the practitioner of choice for local emergency rooms when handling “heart attack” victims who are in fact experiencing severe panic. She has worked in a variety of mental health settings, including state programs, the criminal justice system, mental health hospitals and private practice in order to get a better understanding of the various populations treated as well as the barriers they face in attaining the help that they need. Her philosophy is that everyone is an individual needing specific care tailored to their current needs, wants and hopes, and she is an eclectic therapist who relies heavily on cognitive and dialectical behavioral techniques.

Ms. DePasquale is a featured mental health expert for WSAR 1480 AM radio and a weekly contributor as the divorce, parenting and mental health expert for the website, Examiner.com. She produces a monthly blog for her company website, www.bellmentalhealth.com, titled The Comfy Couch.

Speaker Disclosures:

Financial: Dawn DePasquale is the founder, CEO and Clinical Director of Bell Mental Health Associates. She receives a speaking honorarium from PESI, Inc.

Non-financial: Dawn DePasquale is a contributor for Examiner.com and a mental health expert for WSAR 1480 AM.
