

2-Day: 2019 Psychopharmacology Conference

Spend two action-packed days learning about the newest advances in psychopharmacology and contemporary trends in medication management. From her unique perspective as a doctored psychiatric nurse practitioner, Susan Marie teaches psychopharmacology thoughtfully, with an emphasis on the experience of the client. Susan's extensive 30 years of experience in mental health and passion for clients, shines through in the detail and thoroughness of her presentation.

Clients often only have a few minutes with their prescriber and require additional support. It's vital that you are able to answer their questions, help manage side effects and understand reactions. Designed for counselors, nurses, psychotherapists, psychologists, and other mental health professionals, Susan provides the information you need in order to best help your clients.

This conference allows time for exploration of underrepresented areas, including ADHD, sleep, eating, and substance use disorders. Take home specialized guidelines for geriatrics, pregnant or nursing women, and clients with chronic pain. Discuss how the DSM-5® has impacted prescribing patterns and the use of psychotropics in newly defined diagnoses. In addition to a general 'nuts and bolts' review of medications, you will examine case examples, discuss medication controversies and how to effectively collaborate with prescribing practitioners.

Susan's engaging presentation includes many take home "pearls" you can use to teach your clients about their medications and how to protect them from concerning, dangerous or adverse effects. You will find this conference to have the most up to date medication information and how to use it most effectively with your client.

The nation's top speakers and authors contact PESI first.

If you are interested in becoming a speaker or have a new topic idea, please contact **Scott Simpson** at ssimpson@pesi.com or call 715-855-5263.

Speaker

Susan Marie, PhD, PMHNP, CARN-AP, a licensed psychiatric nurse practitioner with full independent prescriptive practice and certification in addictions, brings to you over 30 years of clinical experience with highly vulnerable clients with suicidality, co-occurring addiction, homelessness, serious mental illnesses, traumatic brain injuries, and persistent pain conditions. She is noted for her "pearls and pitfalls" of psychopharmacology. Her passions are radical respect for people with serious mental illnesses & addictions, excellence in psychopharmacology, and integrating psychotherapeutic interventions for clients with PTSD, addictions and chronic pain.

Dr. Marie is senior clinical director for Behavioral Health at Old Town Clinic, Central City Concern and associate professor at Oregon Health and Science University in Portland, Oregon. She teaches nationally on psychopharmacology as well as suicide assessment and intervention.

Speaker Disclosure:

Financial: Susan Marie is an Associate Professor for Oregon Health & Science University. She receives a speaking honorarium from PESI, Inc.

Non-financial: Susan Marie has no relevant non-financial relationship to disclose.

On Conference Tuition

HONOLULU, HI
Monday & Tuesday
February 4 & 5, 2019

DAY ONE

PSYCHOPHARMACOLOGY

- Drug metabolism concepts
- Drug mechanisms of action- what we know, what we don't know
- Placebo effects- power & how to get it to work for your client
- When to refer for medication- pearls for increasing client interest and participation
- Developing highly effective collaborations with prescribers

DEPRESSIVE DISORDERS

- Neurochemistry of depression
- Controversy regarding antidepressants and placebo- Who to treat when?
- Types of antidepressants- pearls and pitfalls of different agents
- Managing side effects
- Treatment Resistant depression and drug combinations

ANXIETY DISORDERS & OBSESSIVE COMPULSIVE DISORDERS & TRAUMA RELATED DISORDERS

- Neurochemistry of anxiety
- SGAD, panic disorder, phobias
- OCD
- PTSD
- Physiological interventions
- Anti-anxiety medications
 - Antidepressants
 - The many other options often ignored
- Benzodiazepines: risks and benefits
 - How to recognize problematic prescribing patterns
 - Getting off benzos: key pearls for success
- Managing side effects

OBJECTIVES

1. Specify how psychotropic medications are chosen for mood disorders and specific patient characteristics.
2. Analyze the actions, therapeutic uses, and side effects of antidepressants.
3. Assist clients in overcoming barriers that impede the efficacy of their medication regime.

BIPOLAR DISORDERS

- Neurochemistry and symptoms
- The Bipolar Spectrum concept & DSM-5® changes
- Types of mood stabilizers, when to use which and potential adverse effects
 - Lithium
 - Anticonvulsants
 - Atypical antipsychotics
 - Augmenting agents
- Effective strategies for improving outcomes for clients
 - Using blood levels effectively- what the prescriber may not be watching
- Treating pregnant or potentially pregnant women with bipolar disorder

PSYCHOTIC DISORDERS/ SCHIZOPHRENIA

- Neurochemistry of psychosis and schizophrenia
- Antipsychotic Medications:
 - First generation (typical)
 - Second generation (atypical)
- Managing side effects
 - Extrapyramidal symptoms and TD
 - Metabolic problems- what blood tests are needed and when
 - Preventing Diabetes Mellitus
- Recognizing hyperprolactinemia- and why you need to know
- Use of atypical antipsychotics for multiple disorders
- Pregnancy and psychotic disorders

LIMITATIONS OF THE RESEARCH & POTENTIAL RISKS

4. Determine options for clients with treatment-resistant mood disorders.
5. Communicate the actions, side effects, and therapeutic uses of antipsychotic medications.
6. Evaluate three critical strategies for improving collaboration with prescribing practitioners.

DAY TWO

ATTENTIONAL DISORDERS

- Differential diagnosis
- Neurochemistry of ADHD
- Controversy about treatment of ADHD with stimulants
- Substance abuse and ADHD
- Stimulant medications
- Non-stimulant options
- Managing side effects

SLEEP DISORDERS

- Sleep disorders
- Differential diagnosis
- Chicken or the egg? What came first, sleep problems or mental illness
- Controversy about treating sleep problems with hypnotics
- Sleep interventions that really work
- Hypnotic medications: risks and benefits
- Alternatives to hypnotics
- Recognizing adverse Effects

SUBSTANCE USE DISORDERS

- Neurochemistry of addiction & habit development
- Drugs of abuse and interaction with psychiatric medications
 - Caffeine
 - Nicotine
- Marijuana (discussion of medical marijuana, cost vs. benefit)
- Others
- Challenging the old thinking about when to prescribe for clients with dual diagnosis-what we now know
- Medication assisted treatments for addictions
 - Alcohol
 - Nicotine
 - Cannabis
 - Opiates
- Behavioral addictions- what we know works

EATING DISORDERS

- Anorexia, bulimia, binge eating disorder
- Weight gain from psychotropic medications
- Recognizing medical emergencies
 - Standard of care for lab work
- Integrating psychotherapy with psychopharmacology

SPECIAL POPULATIONS: GERIATRIC

- Specialized guidelines for geriatric clients
- Discussion of dementia treatment
- Antipsychotic controversy

SPECIAL POPULATIONS: WOMEN

- Hormonal issues in mood disorders & anxiety
- Pregnancy and breastfeeding-
 - Presenting the choices
 - Resources for you and your clients
- The dangerous, the concerning, and the possibly good options for psychopharmacology
- Menopause- current knowledge and agents

TREATING CLIENTS WITH COMORBID CHRONIC PAIN

- Neurochemistry implications- why it's critical to intervene
- When psychopharmacology can help
- Other alternative interventions

LIMITATIONS OF THE RESEARCH & POTENTIAL RISKS

OBJECTIVES

1. Explore psychotropic medication treatment options for clients with Attention Deficit/ Hyperactivity Disorder.
2. Articulate the efficacy of psychotropic medications in treating eating disorders and discuss how to integrate psychotherapy with psychopharmacology for successful treatment outcomes.
3. Formulate medication treatment options for substance use disorders and discuss how to effectively incorporate medication-assisted treatments into an overall plan for care.
4. Analyze the interaction between women's hormone levels and their mental health symptoms.
5. Explore the use of complementary and alternative agents for treatment of mental illnesses.
6. Determine the unique medication treatment considerations for geriatric clients.

Live Conference Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "live seminar schedule" for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your professions standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

ADDITION COUNSELORS: This course has been approved by PESI, Inc., as a NAADAC Approved Education Provider, for 12.5 CE in the Counseling Services skill group. NAADAC Provider #77553. PESI, Inc. is responsible for all aspects of their programming. Full attendance is required; no partial credit will be awarded for partial attendance.

HAWAII ALCOHOL AND DRUG ABUSE COUNSELORS: This course has been submitted to the Hawaii Alcohol and Drug Abuse Division for review. Credit is pending.

COUNSELORS: This intermediate activity consists of 12.5 clock hours of continuing education instruction. Credit requirements and approvals vary per state board regulations. Please save the course outline, the certificate of completion you receive from the activity and contact your state board or organization to determine specific filing requirements.

MARRIAGE & FAMILY THERAPISTS: This activity consists of 760 minutes of continuing education instruction. Credit requirements and approvals vary per state board regulations. You should save this course outline, the certificate of completion you receive from the activity and contact your state board or organization to determine specific filing requirements.

NURSES/NURSE PRACTITIONER/CLINICAL NURSE SPECIALISTS: PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Nurses in full attendance will earn 12.6 contact hours. PARTIAL CONTACT HOURS WILL BE AWARDED FOR PARTIAL ATTENDANCE.

NURSE PRACTITIONERS: This program offers 760 instructional minutes of pharmacology content which is designed to qualify for 12.6 contact hours toward your pharmacology requirement to receive credit. It is your responsibility to submit your certificate of successful completion and a copy of the seminar brochure to your licensing board.
