

Outline

ASSESSMENT TECHNIQUES FOR DIFFERENTIAL DIAGNOSIS

- Position modifications for patients with mobility limitations or in environments with limited space such as home health or acute care
- Clinical decision-making large group activity to apply assessment techniques and interpret findings
- Recognize assessment findings that indicate central, peripheral, and cervicogenic dizziness diagnoses
- Determine a therapy diagnosis based on patient history, onset, symptoms and assessment

MEDICAL DIAGNOSES AND PROGNOSIS: PERIPHERAL & CENTRAL ORIGIN

- Benign Paroxysmal Positional Vertigo
- Vestibular neuronitis, labyrinthitis
- Meniere's disease, endolymphatic hydrops, acoustic neuroma
- Central vertigo: CVA, multiple sclerosis, migraine-associated
- Cervicogenic vertigo
- Post-concussion syndrome
- Sensory integration/Multi-factorial balance dysfunction

EXAM LAB

- Clearing cervical spine: mVAT, Sharp-Purser test
- Oculomotor exam: Smooth pursuit, Saccades, Vergence and visual acuity
- Vestibular exam: Head thrust, Head-Shaking Nystagmus, Hallpike-Dix, Roll Test
- Assessing nystagmus: Horizontal, vertical, torsional
- Motion sensitivity quotient
- Balance assessment: mCTSIB, Dynamic Gait Index, Gait

VESTIBULAR REHABILITATION: DEVELOPING A PATIENT-SPECIFIC TREATMENT PLAN

- Canalith repositioning maneuvers: Epley maneuver, BBQ roll / quick BBQ roll, Cassani, Appiani, Brandt-Daroff Exercises
- Gaze stabilization: Basic and advancements
- Balance progression
- Sensory integration in balance
- Evidence-based Functional Assessment Tools
- Vestibular EDGE recommendations from the Academy of Neurologic Physical Therapy
- Direct each of the 4 areas of treatment for vestibular rehabilitation

Questions? Call customer service at 800-844-8260

Who Should Attend

- Physical Therapists
- Physical Therapist Assistants
- Occupational Therapists
- Occupational Therapy Assistants
- Audiologists
- Athletic Trainers
- Physicians
- Nurses
- Nurse Practitioners

What to Bring

- Portable treatment table, if available
- Yoga Mat

Live Seminar Schedule

7:30 Registration/Morning Coffee & Tea

8:00 Program begins

11:50-1:00 Lunch (*on your own*)

4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon). Actual lunch and break start times are at the discretion of the speaker. A more detailed schedule is available upon request.

A NON-PROFIT ORGANIZATION CONNECTING KNOWLEDGE WITH NEED SINCE 1979

End Years of Vertigo in as Little as One Session

Colleen Sleik PT, DPT, OCS, NCS, began her journey into the specialized care of vestibular rehabilitation patients after evaluating a patient that she felt ill equipped to help. She needed to know more. Recognizing and treating BPPV itself is quite straightforward. However, the care becomes much more complex for patients that are experiencing something that was initially thought to be BPPV or for those who have multiple conditions impacting their overall presentation. Advanced learning is required to understand how the systems function as a whole. This course was developed with these challenging patients in mind.

The course begins with assessment and treatment techniques for BPPV, including a lab component to practice technique, hand positioning, and patient-specific modifications. You will become skilled to better recognize BPPV and subsequently recognize the presentations that do not fit the BPPV pattern. Further assessment and treatment of the non-BPPV diagnoses will also be addressed through functional assessments and treatment progressions.

Participants of this course will walk out with a deeper understanding of assessment, treatment techniques, patient-specific modifications, and differential diagnosis skills for the dizzy patient. Take your skills to a new level when you can pinpoint the areas where therapy can intervene to promote the desired functional gains for patients and the strategies to appropriately progress patients through each of those areas.

Speaker

COLLEEN SLEIK PT, DPT, OCS, NCS, is a licensed physical therapist, specializing in the treatment of patients with vestibular disorders when other forms of medical management have failed. Dr. Sleik founded a private practice in 2010 with the primary focus of treating patients with vestibular conditions. She continues to work as a specialist at Dickenson Rehab Services where more than 90% of her caseload consists of patients with vestibular and balance disorders.

Dr. Sleik graduated from The College of St. Catherine with a Master’s in Physical Therapy. She earned a transitional Doctor of Physical Therapy degree through The University of St. Augustine, Florida, and completed the Competency-Based

Vestibular Rehabilitation course through Emory University in Atlanta, Georgia. In addition to board-certification as an Orthopaedic Clinical Specialist and Neurologic Clinical Specialist, Dr. Sleik is a member of the American Physical Therapy Association, including the Academy of Neurologic Physical Therapists, and the Vestibular Special Interest Group. She began teaching continuing education courses in vestibular rehabilitation with the purpose of improving clinicians’ knowledge in the specialty of vestibular rehabilitation and ultimately improving the quality of patient care. Dr. Sleik’s goal as a clinician is to provide her patients with the best care available for return to daily function with minimal limitations, while also providing the tools for long-term self-management of symptoms.

Speaker Disclosures:

Financial: Colleen Sleik has an employment relationship with Dickinson County Health Care System; and Aegis Therapies, Golden Living Center. She receives a speaking honorarium from PESI, Inc.
Non-financial: Colleen Sleik is a member of the American Physical Therapy Association.

Objectives

- Perform assessment techniques for vestibular patients with proper technique and appropriate patient-specific modifications.
- Analyze findings of a vestibular assessment to determine a therapy diagnosis.
- Recognize key subjective reports to further enhance evaluation and differential diagnosis skills.
- Evaluate findings that assist in differentiation of central, peripheral and cervicogenic dizziness.
- Formulate a plan of care based on findings from assessments to improve functional outcomes.
- Select proper treatment techniques from evidence-based guidelines for vestibular rehabilitation.
- Evaluate prognosis based on accurate diagnostic procedures.
- Develop appropriate goals for patients considering complete medical history and presenting factors that may modify rehab outcomes.

HAVE A SEMINAR IDEA? A MANUSCRIPT TO PUBLISH?

Neuro Notes: Clinical Pocket Guide

By Claudia Fenderson, PT, ED.D., PCS and Wen Ling, PT, PH.D.

- Wipe-Free History and Assessment Forms
- Organized by Preferred Practice Patterns
- First Tab Cross-References Disorders to Guide Practice Patterns
- Covers Both Pediatric & Adult Content
- Common Neuromuscular Conditions
- Red Flag Alerts

Whatever the practice setting—acute care, rehabilitation, outpatient, extended care, or in a school—turn to this handy pocket guide to the neurological examination. Small in size, but not in content, it covers all of the common neuromuscular conditions, disorders, and diseases you might encountered in patients throughout their lifespans. A spiral binding, thumb tabs and nearly 240 illustrations insure you can find just what you’re looking for. Waterproof, reusable pages let you record clinical data and then wipe the pages clean with alcohol.

Ortho Notes: Clinical Examination Pocket Guide, 4th Edition

By Dawn Gulick, Ph.D., PT, ATC, CSCS

A Davis’s Notes title!

Perfect wherever you are...in class, in clinical, and in practice!

Put the information you need in class, clinical, and practice at your fingertips with this handy, easy-to-use guide. Each joint tab includes the most effective special tests (rated by sensitivity and specificity), medical screening, imaging, mechanism of injury, ROM, strength and functional deficits.

Hassle-Free Cancellation Policy:

If you contact us before the event date, you can exchange for a DVD package on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a \$30 cancel fee. Substitutions are permitted at any time.

Seminar on DVD Package:

You can purchase a self-study package on the subject. You will receive a set of DVDs that include a digital copy of the seminar manual and post-test/evaluation. You and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesirehab.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

PESI, Inc. is proud to offer this seminar (at these locations only) *free* of charge (on live seminar tuition) for veterans and active duty military personnel. Limited seats available; *advanced online registration required*

Live Seminar Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

ATHLETIC TRAINERS: PESI, Inc. is recognized by the Board of Certification, Inc. to offer continuing education for Certified Athletic Trainers. This program has been approved for a maximum of 6.25 hours of Category A continuing education.

NURSES/NURSE PRACTITIONER/CLINICAL NURSE SPECIALISTS: PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Nurses in full attendance will earn 6.3 contact hours. Partial contact hours will be awarded for partial attendance.

OCCUPATIONAL THERAPISTS & OCCUPATIONAL THERAPY ASSISTANTS: PESI, Inc. is an AOTA Approved Provider of continuing education. Provider #: 3322. Full attendance at this course qualifies for 6.0 contact hours or .6 CEUs in the Category of Domain of OT and Occupational Therapy Process. Partial credit will be issued for partial attendance. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. Course Level: Intermediate.

APPROVED PROVIDER
ASHA CONTINUING EDUCATION
AMERICAN SPEECH-LANGUAGE-HEARING ASSOCIATION
PESI, Inc. is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. **See course information for number of ASHA CEUs, instructional level and content area.** ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

AUDIOLOGISTS: This course is offered for .6 ASHA CEUs (Intermediate level, Professional area).

OTHER PROFESSIONS: This activity qualifies for 380 minutes of instructional content as required by many national, state and local licensing boards and professional organizations. Save your course outline and certificate of completion, and contact your own board or organization for specific requirements.
