Outline

PHYSIOLOGICAL CHANGES IN ACUTE CARE

- Effects of immobility on organ systems
- Respiratory
- Cardiac
- Digestive
- Musculoskeletal
- Early and aggressive mobilization and intervention

ENSURE SAFE AND SUCCESSFUL TRANSFERS AND MOBILITY FOR ANY PATIENT

- Decision-making process
- · Weight-bearing restriction mobilization
- Specific mobility restrictions
- Pulmonary embolism
- Deep vein thrombosis
- Mobilization management
- Chest tubes
- Arterial lines
- IV management

ICU/IMC SPECIFIC MANAGEMENT

- Fecal management systems
- Various catheter types

ADVANCED TREATMENT INTERVENTIONS FOR IMPROVED OUTCOMES

- Orthopedic interventions
- Orthopedically complex patient
- Cutting-edge interventions
- Transitioning to same day ortho discharge
- Shorter length of stay with improved outcomes
- Transfer considerations
- Alternative techniques for NWB
- Transfers for all WB restrictions
- Burn injury across the lifespan
- Types and degree of burn injury - Burn management and surgical interventions
- Current trends in therapeutic burn intervention
- Cardiac diagnoses
- Cardiac surgery and appropriate therapeutic progression
- Sternal precautions
- Implementation of strength training
- · Neurological emergencies and trends in intervention
- tPA administration and impact on therapeutic intervention
- Management of the severe stroke
- Patients with brief neurological deficits

Who Should Attend

- Occupational Therapists
- Occupational Therapy Assistants
- Physical Therapists
- Physical Therapist Assistants
- Nurses
- Nurse Practitioners

- · Respiratory compromised patient
- High-flow oxygen management
- COPD
- Fresh take on energy conservation techniques

INTERVENTIONS FOR PATIENTS WITH **COGNITIVE/PSYCHIATRIC DIAGNOSES**

- Addressing the behaviorally challenging patient
- TBI
- Dementia
- Aggression
- Motivation of the chronically-refusing patient
- Major depression and its impact on therapeutic intervention

OUTCOME EXPECTATIONS AND GOAL CONSIDERATIONS

- Short-term vs. long-term goal implementation
- Timing of PT/OTR reassessments
- Predicting the future
- Appropriate goal development

CREATE AN EFFECTIVE AND SUCCESSFUL DISCHARGE PLAN

- Importance of an interdisciplinary approach
- Pros/cons of sub-acute, home health, and other discharge destinations

CARING FOR THE CAREGIVER

- Client-centered practice and inclusion of the patient's support system
- · Manage the challenging family/caregiver

BILLING AND DOCUMENTATION

- Effective and successful documentation during acute and post-acute stay
- · Document progression in patients with limited function
- · Understand G codes, payment, and billing

ACHIEVE PRODUCTIVITY

- · History of productivity requirements and their
- Current trends in productivity expectations

A Non-Profit Organization Connecting Knowledge with Need Since 1979

Acute Care & ICU Rehab

Explore the latest interventions for improving functional mobility, strength, independence, and outcomes in acute care rehab. Designed for all practice levels, from the new grad to the veteran acute care professional, this hands-on course will provide you with an updated knowledge base for making appropriate decisions within the ICU and acute care environments, implementing assessment and treatment tools, integrating existing treatment plans with progression into the plan of care, and adjusting or accommodating treatment interventions across the hospital stay through transition out of the hospital. Discover the latest assessment techniques and learn how to integrate treatments into rehab plans during acute and post-acute phases. Practice the latest interventions, strategies, and best practices in hands-on labs throughout the day.

Discover new treatments for:

Early mobilization

- Intubation/Vent dependency
- Management of lines, wires and tubes
- Respiratory distress

- Discharge planning Caregiver training

Speaker

TRISHA FARMER, COTA/L, a nationally renowned speaker and educator, holds extensive experience in all aspects of acute care, including neurology, complex trauma, orthopedics and a multitude of diagnoses involving medically complex and clinically fragile patients. Clinically, she is employed within a Level I Trauma Center, which holds a nationally recognized stroke center and regional burn center, where she routinely develops innovative and evidence-based treatment plans for patient's experiencing a wide variety of diagnoses. In addition to her clinical expertise, Trisha serves as a continuing education instructor for multiple organizations, specializing in the provision of continuing education in the field of acute care therapy as well as wheelchair seating/positioning. In her spare time, Trisha works closely with volunteer and non-profit organizations with a focus on veterans and suicide

Speaker Disclosures:

Financial: Trisha Farmer has an employment relationship with Memorial Medical Center; and Saint Louis University Hospital. She receives an honorarium from Performance Health Academy. Ms. Farmer receives a speaking honorarium from PESI, Inc. Non-financial: Trisha Farmer has no relevant non-financial relationship to disclose.

Course Developer - Dr. Kirsten Davin, OTDR/L, ATP, SMS - says:

Trisha's immense knowledge in trauma and the acute care setting provides the attendee with an amazing **CEU** experience! This course is a must see for anyone who works with medically complex patients!

Productivity

• Billing/Documentation

Objectives

- State the critical elements of analysis and assessment in mobilizing medically fragile patients.
- Develop an appropriate plan of care for patients who present with a critically ill cardiac, neurological or respiratory diagnosis.
- Distinguish the characteristics, similarities of, and differences between, medically fragile and general acute care patients and methods to implement successful therapeutic interventions with each.
- Demonstrate an understanding of the outcome tools available for assessment of the acute or critically
- · Evaluate strategies for addressing the behaviorally challenging patient and successful methods for
- Identify methods to effectively document progression throughout the acute care spectrum.

Fast Facts Workbook for Cardiac Dysrhythmias and 12-Lead EKGs By Paul Desmarais PhD, RN

This practical and straightforward workbook is designed to distill the complexities of the 12-Lead EKG. Perfect for both new and experienced Nurses, the book contains numerous practice examples with instant, detailed feedback of the "why" behind diagnosis and treatments, and provides much-needed reinforcement of this often-challenging content.

Ortho Notes: Clinical Examination Pocket Guide, 4th Edition Ortho -By Dawn Gulick, Ph.D., PT, ATC, CSCS

A Davis's Notes title!

Perfect wherever you are...in class, in clinical, and in practice!

Put the information you need in class, clinical, and practice at your fingertips with this handy, easy-to-use guide. Each joint tab includes the most effective special tests (rated by sensitivity and specificity), medical screening, imaging, mechanism of injury, ROM, strength and functional deficits.

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a DVD or CD on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a \$30 cancel fee. Substitutions are permitted at any time.

Seminar on DVD or CD Package: You can purchase a self-study package on the subject. You will receive a set of DVDs or CDs that include a digital copy of the seminar manual and post-test/evaluation. You and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesirehab.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

PESI, Inc. is proud to offer this seminar (at these locations only) free of charge (on live seminar tuition) for veterans and active duty military personnel. Advanced online registration required.

Live Webcast Details and Live Webcast Continuing Education Credit Information

Join us on July 12, 2019, for this live, interactive webcast! Invite your entire office and, like a live seminar, "attend" the webcast at its scheduled time. It's easy and convenient! Webcasts provide everything you need for a premier educational experience including real-time video and audio of the speaker. See and hear the speaker, ask questions via email and have them answered during the webcast, and watch the slides all on your computer screen. Seminar materials are available for download. One CE Certificate is included. Certificates of Completion can be printed after completing and passing the on-line post-test evaluation. Additional certificates are available for \$49.99 USD per participant. Please see "live seminar schedule" for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch. For CE information for the live webcast, please visit: www.pesi.com/webcast/71930.

Live Seminar Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times, NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modali that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards
