Effective Mindfulness Interventions

Techniques to Improve Patient Outcomes & Personal Well-being

Your work as a therapist can be so rewarding, seeing patients return to their normal life and activity. Yet, there are days when you're not as locked in to each patient, where the emotional toll of their behavior can hinder your progress and your go-to strategies just aren't as effective.

Revitalize your practice and take your clinical effectiveness as a therapist to the next level using mindfulness.

Mindfulness isn't a buzzword; the principles and practices are proven to work! Learn to use these time-tested techniques to improve therapy outcomes while simultaneously reducing the overwhelming stress you face daily as a healthcare professional.

Gain effective clinical techniques from physical therapist and certified mindfulness facilitator, Clyde Boiston, who has utilized mindfulness in his clinical practice for over two decades. You'll become proficient at applying foundational mindfulness techniques and practices to a variety of clinical populations – simultaneously improving your assessment of and treatment outcomes with patients. Join him for this transformational experience as he reveals the latest advances in mindfulness and neuroscience to improve your work as a therapist and open the door to becoming a more centered human being.

Full of experiential exercises, interactive discussions, and other resources, you will take away practical mindfulness strategies you can immediately integrate into your practice and your daily life.

Speaker

CLYDE BOISTON, PT, OCS, CMF, is a licensed physical therapist with over 20 years of clinical experience who has worked in multiple therapy settings including acute care, outpatient orthopedics and home health. In addition to his continuing clinical work as a PT, he and his wife own and operate Bel Wellness, a mind-body wellness studio in Riverside, CA which offers both private sessions and group classes in mindful movement, yoga, Pilates, mindfulness, Tai Chi, and meditation. Mr. Boiston is a mindfulness teacher and meditation instructor who presents retreats, workshops, and mindful living classes to both corporate and healthcare employers as well as the general community. His clients include Kaiser Permanente, Morgan Stanley Wealth Management, UC Riverside, and the Riverside County Office on Aging. He trained through UCLA's Mindful Awareness Research Center (MARC) which is part of the university medical school's Semel Institute for Neuroscience and Human Behavior. He completed their yearlong Intensive Practice Program (IPP) in 2015 and received their Certification as a Mindfulness Facilitator (CMF) in 2017. He graduated with a BS in PT from California State University Long Beach in 1997 and has been Board Certified as an Orthopedic Clinical Specialist (OCS) since 2004.

Speaker Disclosures:

Financial: Clyde Boiston is the owner of Be Everything in Life. He has an employment relationship with Kaiser Permanente Home Health. Mr. Boiston receives a speaking honorarium from PESI, Inc.
Non-financial: Clyde Boiston has no relevant non-financial relationship to disclose.

Objectives

1. Define the mind-body connection and explain how mindful awareness practices can improve both clinical effectiveness and personal well-being.
2. Articulate what recent scientific research has discovered which validates the use of mindfulness in therapy.
3. Discuss the concept of neuroplasticity and discover how mindfulness meditation can change the structure and function of the brain in positive ways.
4. Identify 3 components of burnout suffered by healthcare professionals and articulate why the rates of each are significantly higher than the general working population.
5. Demonstrate the connection between healthcare provider burnout and the resultant decrease in quality of patient care and clinician effectiveness.
6. Discover techniques to improve your own mind-body awareness and use this as a resource in designing more effective interventions in your patient's treatment plan.
7. Develop mindful speaking and listening strategies that will help you become more actively engaged with your patients and improve their clinical outcomes.
8. Design a plan to incorporate both formal meditation practice and informal mindfulness activities into your daily life after the course concludes.

Live Webcast Details and Live Webcast Continuing Education Credit Information
