

2-DAY

Acute Care Rehab Certificate Course

Strategies for Multi-Trauma Patients

In any acute or ICU setting, you've got to be ready to encounter any and everything when integrating rehab into the plan of care – particularly for patients with multiple traumatic injuries. From establishing early mobilization when treating multiple extremity injuries to managing lines/wires/tubes to discharge planning and billing correctly under the new guidelines – acute and ICU rehab can be overwhelming and quite stressful, even for the most seasoned clinician.

Gain the confidence you deserve in the hospital setting by exploring new interventions for improving functional mobility, independence, and outcomes with your most challenging patients. Even if you already use some of the techniques, this 2-day certificate course refines your skills and goes a long way in making your work more efficient and effective.

Designed for all practice levels, from the new grad to the veteran acute care practitioner, this hands-on certificate course will provide you with an updated knowledge base for making appropriate decisions within the ICU and acute care environments. Gain age-appropriate strategies on how to best evaluate and treat patients with specific injuries, including multiple extremities, TBI, axial skeleton injuries, burns, and gunshot wounds – from acute to post-acute phases.

Sign up today for your chance to gain a certificate in acute care rehab, elevating you among your peers to bring the highest quality of care to those medically complex patients.

Speaker

STEVEN RANKIN, OTR/L, has 20 years of experience as an acute care occupational therapist in an academic medical center, level 1 trauma and regional burn center, with a primary focus on trauma care. He left a career in the construction industry due to injury, which has provided him with a unique insight as a patient. After many years of seeing continuing education available in specific content areas but not finding a comprehensive trauma course, he decided to create one himself. He has since trained physical and occupational therapy staff, Speech-Language Pathologists, nurse practitioners, and medical doctors in the treatment of traumatic injuries. Mr. Rankin is a regular guest lecturer at the University of Wisconsin-Milwaukee in acute care.

Speaker Disclosures:
Financial: Steve Rankin has an employment relationship with the University of Wisconsin Hospitals and Clinics. He receives an honorarium from AOTA. Mr. Rankin receives a speaking honorarium from PESI, Inc.
Non-financial: Steven Rankin has no relevant non-financial relationship to disclose.

Objectives

1. Discuss the trauma care delivery system including your facility's and profession's role in that system.
2. Articulate mechanisms of injury and specific implications for therapy.
3. Identify incidence and prevalence of traumatic injury and death including important patient factors.
4. Compare operative and non-operative management of injuries.
5. Review case studies on acute rehab strategies for upper extremity injuries.
6. Apply acute treatments for various upper and lower extremity injuries in lab session.
7. Review various combinations of injuries and implications for treatment and co-treatment.
8. Explain complications and how to prevent and to anticipate how to intervene.
9. Determine therapy role in discharge planning and considerations for discharge destination/follow-up services.
10. Describe the role of standardized and non-standardized assessments for planning of interventions and communication to other providers.
11. Identify available resources and appropriate assessment in acute care.
12. Review case studies determining when to co-treat patient with other professions.

Who Should Attend

Outline

OVERVIEW OF TRAUMA CARE DELIVERY SYSTEM
Trauma care centers
Triage algorithms

INCIDENCE AND PREVELANCE OF TRAUMATIC INJURIES
Who gets hurts? How and why?
• Importance of what demographic information can tell us and how it can affect therapy
How do client factors influence our decisions?

MECHANISM OF INJURY
What does it tell us?
High vs. low impact injuries

EVALUATION: WHO DOES WHAT?
By trauma surgeon
By consultants
By therapists
Case studies

COMPLICATIONS YOU MAY ENCOUNTER AND STEPS ON HOW TO HANDLE THEM
Sepsis
Drug and alcohol use
Pulmonary embolism
Pain
• Acute pain vs. acute on chronic pain
• Multi-modal approaches

SPECIFIC INJURIES AND ACUTE STRATEGIES FOR TREATMENT – CASE STUDIES AND LAB

FRACTURE MANAGEMENT
Operative and non-operative treatments
Indications for various treatments

UPPER EXTREMITY INJURIES
Wrist/hand
Elbow, splinting considerations
Shoulder – diagnosis, provocative tests

HETEROTOPIC OSSIFICATION
Elbow trauma
Burns
TBI

HEAD INJURIES
Facial fractures, Le Fort taxonomy
TBIs
Is it a brain injury?
ETOH withdrawal
Delirium
Underlying dementia

TRUNK/AXIAL SKELETON INJURIES
Rib fractures
Spinal fractures
Pelvic fractures

LOWER EXTREMITY INJURIES
Schatzker taxonomy
Weber taxonomy
Transfers and ambulation
Weight bearing
Amputations
Splinting/orthotics/special cases

BURNS AND GUNSHOT WOUNDS
Positioning, splinting
Improve range of motion
Precautions
Fractures
Soft tissue and vascular injuries

PUTTING IT ALL TOGETHER: THERAPY EVALUATION AND TREATMENT
Where do I start?
Standardized assessments in the acute setting
• Balance/mobility
• ADL
• Functional cognition

When do I co-treat?
Caregiver training on c-collars, CTOs, TLSOs and more
Better billing and documentation under the new CMS guidelines
Discharge planning and return to work recommendations
How to dramatically reduce readmission
Case Studies

Live Seminar Schedule (Both Days)

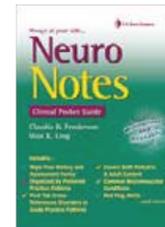

7:30 Registration/Morning Coffee & Tea
8:00 Program begins
11:50-1:00 Lunch (on your own)
4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon).
Actual lunch and break start times are at the discretion of the speaker.
A more detailed schedule is available upon request.

RELATED PRODUCTS [Save by including with your seminar registration]

Fundamental Sequences for the Medical Setting
By Dana Baggett, M.S., CCC-SLP
These easy-to-use sequencing cards created by veteran SLP Dana Baggett, are able to be utilized by rehab professionals to reinforce PT, OT, and ST concepts. Therapists will be able to use these cards to facilitate motor planning and cognitive progression; while also improving safety awareness, reasoning, and memory skills. This product can be implemented into a variety of rehab settings and used by other staff members and family members to practice skills being taught by therapy.

Neuro Notes: Clinical Pocket Guide
By Claudia Fenderson, PT, ED.D., PCS & Wen Ling, PT, PHD
• Wipe-Free History and Assessment Forms • Organized by Preferred Practice Patterns
• First Tab Cross-References Disorders to Guide Practice Patterns
• Covers Both Pediatric & Adult Content • Common Neuromuscular Conditions
• Red Flag Alerts
Whatever the practice setting—acute care, rehabilitation, outpatient, extended care, or in a school—turn to this handy pocket guide to the neurological examination. Small in size, but not in content, it covers all of the common neuromuscular conditions, disorders, and diseases you might encounter in patients throughout their lifespans. A spiral binding, thumb tabs and nearly 240 illustrations insure you can find just what you're looking for. Waterproof, reusable pages let you record clinical data and then wipe the pages clean with alcohol.

Questions? Call customer service at 800-844-8260

Hassle-Free Cancellation Policy:
If you contact us before the event date, you can exchange for a DVD or CD on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a \$60 cancel fee. Substitutions are permitted at any time.

Seminar on DVD or CD Package:
You can purchase a self-study package on the subject. You will receive a set of DVDs or CDs that include a digital copy of the seminar manual and post-test/evaluation. You and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesirehab.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

Live Seminar Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

Nurses, Nurse Practitioners, and Clinical Nurse Specialists: PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Nurses in full attendance will earn 12.6 contact hours. Partial contact hours will be awarded for partial attendance.

Occupational Therapists & Occupational Therapy Assistants: PESI, Inc. is an AOTA Approved Provider of continuing education. Provider #: 3322. Full attendance at this course qualifies for 12.5 contact hours or 1.25 CEUs in the Category of Domain of OT and Occupational Therapy Process. Partial credit will be issued for partial attendance. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. Course Level: Intermediate.

Physical Therapists & Physical Therapist Assistants: This activity consists of 12.5 clock hours of instruction that is applicable for physical therapists. CE requirements for physical therapists vary per state/jurisdiction. Please retain the certificate of completion that you receive and use as proof of completion when required.

New Jersey Physical Therapists & Physical Therapist Assistants: This course has been submitted to the New Jersey State Board of Physical Therapy for review.

Physician Assistants: AAPA accepts certificates of participation for educational activities certified for AMA PRA Category 1™ from organizations accredited by ACCME such as PESI. Physician assistants may receive a maximum of 12.5 hours for completing this program.

PESI, Inc. is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Other Professions: This activity qualifies for 760 minutes of instructional content as required by many national, state and local licensing boards and professional organizations. Save your course outline and certificate of completion, and contact your own board or organization for specific requirements.

PESI, Inc. is proud to offer this seminar (at these locations only) free of charge (on live seminar tuition) for veterans and active duty military personnel. **Limited seats available; advance online registration required.**
