

Outline

HOW RECENT CHANGES IN STROKE TREATMENT ARE RESHAPING THERAPY

- Hot topics and innovations in stroke rehabilitation
- What stroke rehabilitation will look like in 1, 5, and 10 years

HANDS-ON LABS MASTER CLINICAL REASONING AND ASSESSMENT SKILLS FOR STROKE REHABILITATION

Practice today's best evaluations for:

- Gait, balance and coordination
- Strength, mobility and stability
- Upper extremity function
- Lower extremity function
- Executive function

HANDS-ON LABS EXPAND YOUR STROKE REHABILITATION TOOLBOX

Practice effective techniques you can use immediately to:

- Ignite neuroplasticity for breakthrough results
- Restore functional strength more quickly
- Enhance function and multi-tasking ability
- Reduce spasticity
- Restore limb use
- Resolve impairments from a more functional, person-centered perspective
- Improve bed mobility, transfers, and gait with less strain
- Design a more effective home program
- Intensify therapy safely and effectively
- Re-engage difficult or depressed patients

HANDS-ON LABS INTEGRATE MULTIPLE APPROACHES FOR BETTER OUTCOMES

Practice combining:

- Constraint-induced movement therapy
- Bimanual therapy
- Dual task interventions
- Balance and gait training
- Taping
- Functional activities
- Therapeutic exercise
- Neuroplasticity-building interventions

HANDS-ON LABS DESIGN ROBUST, INNOVATIVE PLANS OF CARE FOR YOUR PATIENTS

Practice developing treatment strategies for specific impairments related to:

- Ataxia
- Hemiparesis
- Neglect
- Pusher syndrome
- Spasticity
- Subluxation
- Gait and mobility
- Decreased sensation
- Reduced flexibility
- Muscular weakness
- Timing/coordination

CASE STUDIES PUT KNOWLEDGE TO PRACTICE

- Case study 1: Correctly select the root cause of impairment
- Case study 2: Apply advanced gait training and multitasking techniques
- Case study 3: Improve postural control and mobility with an agitated patient
- Case study 4: Overcome barriers to effective strategy implementation
- Case study 5: Adjust your plan of care for surgical and technological advances

DON'T LEAVE MONEY ON THE TABLE!

- Coding and billing updates for stroke rehabilitation
- Justify therapy with the right progress measures
- Avoid denials and audits with these tips

Actual lunch and break start times are at the discretion of the speaker.

A more detailed schedule is available upon request.

2-DAY Stroke Recovery Specialist Certificate Course

Best Practices for Rapid Functional Gains and Improved Outcomes

Working with stroke patients is deeply meaningful and incredibly rewarding. And you strive to help each client who's counting on you to facilitate the improvements that can change their lives.

But some patients are so impaired that treatment becomes overwhelming. Others make exceptional gains in clinical settings, only to hit a wall in less controlled environments. As time passes without results, even the most promising patient can feel the sun setting on the person she used to be, growing disengaged and depressed -- convinced she can't progress further with therapy.

If you're not up to speed on the latest treatment strategies, she might be right.

Become a Stroke Recovery Specialist and learn how to apply innovative techniques that completely redefine what's possible for your patients! Built on today's best practices, this program will show you how to develop and market a world-class stroke rehabilitation program with tools and strategies that have helped countless survivors leave their limitations behind, even 20 years post stroke.

Sign up today and leave this one-of-a-kind training knowing that when your next patient tells you how she hopes to return to work or stay active with her grandkids, you'll be able to confidently guide her toward rapid functional improvements with the best methods available in neurological rehab!

Speaker

BENJAMIN WHITE, PT, DPT, C/NDT, LSVT BIG, is an expert in stroke rehabilitation who serves as the lead Neurological Therapist at a not-for-profit healthcare institution in Texas. A graduate of the University of Texas Health Science Center's physical therapy doctoral program, he has treated a wide array of neurological diagnoses over the years, from concussions and vestibular disorders to stroke, Parkinson's, and Guillain-Barré syndrome.

Dr. White is an award-winning clinical instructor, a renowned national speaker on stroke rehabilitation topics, and has published numerous articles on the topics of neuroplasticity and stroke. In addition, he serves on the Neuro-Development Treatment (NDT) publication committee and is the co-president of the Brazos Valley Parkinson's Association.

Speaker Disclosures:

Financial: Benjamin White has an employment relationship with Baylor Scott & White. He receives a speaking honorarium from PESI, Inc. Non-financial: Benjamin White is a member of the Neurodevelopmental Treatment Association.

Objectives

- Discuss the latest advances in stroke recovery and their implications for therapy.
- Review strategies for identifying the root causes of post-stroke impairments faster.
- Demonstrate how to enhance function with dual task interventions.
- Describe techniques for improving bed mobility, transfers, and gait with less strain.
- Demonstrate how to reduce spasticity and restore limb use with constraint-induced movement therapy.
- Design an effective home program.

- Discuss a more functional, person-centered approach to resolving impairments.

- Review parameters for safely intensifying rehab.

- Determine effectively strategies for helping difficult or depressed patients become more engaged in their recovery.

- Develop a stroke rehabilitation program that combines traditional and innovative treatment strategies.

- Evaluate progress measures used to justify therapy.

- Describe strategies for effectively marketing a stroke rehabilitation program.

HAVE A SEMINAR IDEA? A MANUSCRIPT TO PUBLISH?

The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact Orion Tarpley at otarpley@pesi.com or 715-855-5262.

Ortho Notes: Clinical Examination Pocket Guide, 4th Edition

By Dawn Gulick, Ph.D., PT, ATC, CSCS

A Davis's Notes title!

Put the information you need in clinical practice at your fingertips with this handy, easy-to-use guide. Each joint tab includes the most effective special tests (rated by sensitivity and specificity), medical screening, imaging, mechanism of injury, ROM, strength and functional deficits.

Neuro Notes: Clinical Pocket Guide

By Claudia Fenderson, PT, ED.D., PCS & Wen Ling, PT, PH.D.

- Wipe-Free History and Assessment Forms • Organized by Preferred Practice Patterns
- First Tab Cross-References Disorders to Guide Practice Patterns • Covers Both Pediatric & Adult Content
- Common Neuromuscular Conditions • Red Flag Alerts

Whatever the practice setting--acute care, rehabilitation, outpatient, extended care, or in a school--turn to this handy pocket guide to the neurological examination. Small in size, but not in content, it covers all of the common neuromuscular conditions, disorders, and diseases you might encounter in patients throughout their lifespans. A spiral binding, thumb tabs and nearly 240 illustrations insure you can find just what you're looking for. Waterproof, reusable pages let you record clinical data and then wipe the pages clean with alcohol.

Live Seminar Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

Nurses, Nurse Practitioners, and Clinical Nurse Specialists: PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Nurses in full attendance will earn 12.6 contact hours. Partial contact hours will be awarded for partial attendance.

Occupational Therapists & Occupational Therapy Assistants:

PESI, Inc. is an AOTA Approved Provider of continuing education. Provider #: 3322. Full attendance at this course qualifies for 12.5 contact hours or 1.25 CEUs in the Category of Domain of OT and Occupational Therapy Process. Partial credit will be issued for partial attendance. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. Course Level: Intermediate.

Physical Therapists & Physical Therapist Assistants:

This activity consists of 12.5 clock hours of instruction that is applicable for physical therapists. CE requirements for physical therapists vary per state/jurisdiction. Please retain the certificate of completion that you receive and use as proof of completion when required.

DELAWARE PHYSICAL THERAPISTS & PHYSICAL THERAPIST ASSISTANTS: The Delaware Examining Board of Physical Therapists and Athletic Trainers accepts CEUs approved by a national governing body (e.g., APTA, BOC) or a fellow state licensing board during the current licensing period. This activity consists of 12.5 clock hours of instruction applicable for physical therapists.

New York Physical Therapists & Physical Therapist Assistants:

PESI, Inc. is recognized by the New York State Education Department, State Board for Physical Therapy as an approved provider for physical therapy and physical therapy assistant continuing education. This course qualifies for 15.2 Contact Hours.

Pennsylvania Physical Therapists & Physical Therapist Assistants:

The Pennsylvania State Board of Physical Therapy recognizes approval by all other state boards. This activity consists of 12.5 clock hours of instruction that is applicable for physical therapists.

Physician Assistants: AAPA accepts certificates of participation for educational activities certified for AMA PRA Category 1™ from organizations accredited by ACCME such as PESI. Physician assistants may receive a maximum of 12.5 hours for completing this program.

PESI, Inc. is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Other Professions: This activity qualifies for 760 minutes of instructional content as required by many national, state and local licensing boards and professional organizations. Save your course outline and certificate of completion, and contact your own board or organization for specific requirements.
