

Outline

Hot topics and innovations in upper extremity rehab

- Give your patients the benefit of cutting edge research and treatments

HANDS-ON LAB

Upgrade your assessment and clinical reasoning skills

- Get to the root causes of impairments faster with the best evaluations for:
  - Pain
  - Paresthesia
  - Muscle weakness
  - Burning sensation
  - Edema
  - Locking and snapping fingers
  - Decreased AROM

HANDS-ON LAB

Revolutionize your rehab toolbox

- Practice effective techniques you can use immediately to:
  - Resolve pain and paresthesia
  - Reduce edema
  - Improve tissue extensibility
  - Strengthen and condition muscles without increasing inflammation
  - Enhance endurance
  - Modify tasks and workstations to prevent recurrence
  - Improve self-management skills

How to combine techniques more effectively for better outcomes

- Provocative testing
- Myofascial assessment
- Myofascial release
- Joint mobilization
- Thermal modalities
- Ultrasound
- Occupational profiling
- Task modifications
- Workstation and equipment modifications
- Patient education
- Self-care techniques
- Strengthening approaches

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a DVD package on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a \$60 cancel fee. Substitutions are permitted at any time.

HAVE A SEMINAR IDEA? A MANUSCRIPT TO PUBLISH?

The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact Orion Tarpley at [otarpley@pesi.com](mailto:otarpley@pesi.com) or 715-855-5262.

HANDS-ON LAB

Design advanced, innovative plans of care for your patients

- Practice developing comprehensive treatment strategies for common impairments, including:
  - Epicondylitis
  - Tendinitis
  - De Quervain's syndrome
  - Trigger finger
  - Carpal tunnel syndrome
  - Cubital tunnel syndrome
  - Pronator syndrome
  - Intersection syndrome
  - Myofascial pain
  - PIP joint sprain/strain

CASE STUDIES

Put knowledge to practice

- Case study 1: Correctly identify the root cause of impairment
- Case study 2: Problem solve a complex hand injury and develop an effective treatment plan
- Case study 3: Develop an advanced plan of care for a patient with severe carpal tunnel syndrome
- Case study 4: Overcome barriers to effective strategy implementation

Don't leave money on the table!

- Coding and billing updates for upper extremity diagnoses
- Justify therapy with the right progress measures
- Avoid denials and audits with these tips

REHAB SUMMIT

LAS VEGAS

July 29–August 1, 2020

[rehabsummit.com](http://rehabsummit.com)

Seminar on DVD Package: You can purchase a self-study package on the subject. You will receive a set of DVDs that include a digital copy of the seminar manual and post-test/evaluation. You and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to [www.pesirehab.com](http://www.pesirehab.com) or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

# Innovative Treatments for Tendinopathy and Nerve Compression

Stop the Pain before It Leads to Surgery - and Keep It from Coming Back!

You work hard to help your upper extremity patients avoid unnecessary surgeries, but sometimes it can feel like an uphill battle.

Localizing the problem can be a daunting task, and without a clear target, you might be tempted to lean on standard therapy protocols. But unless you’re dealing with a textbook case, this can quickly worsen the pain and inflammation, leaving your patients frustrated, pained by activities that give them purpose, and resigned to surgical options.

Getting your patients on the road to recovery doesn’t have to be difficult.

Join your colleagues at this hands-on seminar, and learn a proven framework that has helped countless patients -- from athletes with tendonitis to nurses with carpal tunnel syndrome -- regain lost function and reexperience life without the pain.

Get to the root cause of impairment quickly with a comprehensive assessment that combines the best evaluations currently available. Revolutionize your therapy toolbox with innovative interventions you can use immediately to accelerate progress. And design advanced plans of care for a variety of common upper extremity diagnoses, fluently combining techniques for optimal outcomes.

Sign up today, become the go-to resource for resolving frustrating upper extremity injuries in your facility, and feel the satisfaction of returning your patients to the activities they value.

## Speaker

**NANCY KROLIKOWSKI, OTD, OTR/L, CHT, is an expert in hand therapy,** with over 40 years of experience helping countless patients recover lost function and return to the activities they value. Over the years, she has owned two hand therapy practices and managed the hand therapy department of a major national upper extremity trauma center.

Dr. Krolikowski travels internationally to present seminars on hand and upper extremity management and is known for her engaging approach to teaching. A graduate of South University West Palm Beach’s doctoral program, she continues her clinical work at Sentara Health Care, and she serves as program director for the OTA program at her alma mater’s Virginia Beach location.

Speaker Disclosures:

Financial: Nancy Krolikowski is the director of the occupational therapy assistant program at South University. She receives a speaking honorarium from PESI, Inc.

Non-financial: Nancy Krolikowski has no relevant non-financial relationship to disclose.

## Objectives

1. Discuss the latest advances in upper extremity rehabilitation and their implications for your patients.
2. Demonstrate a comprehensive assessment, identifying and differentiating root causes of pain and impairment.
3. Integrate the most effective interventions available for restoring function and reducing pain, edema, weakness, and fatigue caused by tendinopathy and nerve compression.
4. Combine multiple approaches for better outcomes, including strengthening and conditioning exercises, myofascial release, joint mobilization, therapeutic modalities, occupational profiling and task modification.
5. Design effective, innovative plans of care for a wide range of upper extremity diagnoses.
6. Apply the assessments and interventions discussed in this seminar to a series of interactive case scenarios.

### Live Webcast Details and Live Webcast Continuing Education Credit Information

**Join us on December 6, 2019, for this live, interactive webcast!** Invite your entire office and, like a live seminar, “attend” the webcast at its scheduled time. It’s easy and convenient! Webcasts provide everything you need for a premier educational experience including real-time video and audio of the speaker. See and hear the speaker, ask questions via email and have them answered during the webcast, and watch the slides all on your computer screen. Seminar materials are available for download. One CE Certificate is included. Certificates of Completion can be printed after completing and passing the on-line post-test evaluation. Additional certificates are available for \$49.99 USD per participant. Please see “live seminar schedule” for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch. For CE information for the live webcast, please visit: [www.pesirehab.com/webcast/74491](http://www.pesirehab.com/webcast/74491)

### SAVE BY INCLUDING THESE PRODUCTS WITH SEMINAR REGISTRATION!

#### Neuro Notes: Clinical Pocket Guide

By Claudia Fenderson, PT, ED.D., PCS and Wen Ling, PT, Ph.D.

Whatever the practice setting—acute care, rehabilitation, outpatient, extended care, or in a school—turn to this handy pocket guide to the neurological examination. Small in size, but not in content, it covers all of the common neuromuscular conditions, disorders, and diseases you might encounter in patients throughout their lifespans. A spiral binding, thumb tabs and nearly 240 illustrations insure you can find just what you’re looking for. Waterproof, reusable pages let you record clinical data and then wipe the pages clean with alcohol.

#### Ortho Notes: Clinical Examination Pocket Guide, 4th Edition

By Dawn Gulick, Ph.D., PT, ATC, CSCS

A Davis’s Notes title!

Perfect wherever you are...in class, in clinical, and in practice! Put the information you need in class, clinical, and practice at your fingertips with this handy, easy-to-use guide. Each joint tab includes the most effective special tests (rated by sensitivity and specificity), medical screening, imaging, mechanism of injury, ROM, strength and functional deficits.

Visit our Online Product Store: [www.pesirehab.com/store](http://www.pesirehab.com/store)

### Live Seminar & Webcast Schedule

**7:30** Registration/Morning Coffee & Tea

**8:00** Program begins

**11:50 - 1:00** Lunch (on your own)

**4:00** Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon). Actual lunch and break start times are at the discretion of the speaker. A more detailed schedule is available upon request.

### Live Seminar Continuing Education Credit Information

**Credits listed below are for full attendance at the live event only.** After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, “Evaluation and Certificate” within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see “LIVE SEMINAR SCHEDULE” on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact [cepesi@pesi.com](mailto:cepesi@pesi.com) or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession’s standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

**Athletic Trainers:** PESI, Inc. is recognized by the Board of Certification, Inc. to offer continuing education for Certified Athletic Trainers. This program has been approved for a maximum of 6.25 hours of Category A continuing education.

**Exercise Physiologists:** ASEP members will earn 5.0 CECs for full attendance at this seminar. The ASEP allows members to earn a maximum of 10 CECs in any one 5-year period.

**Nurses, Nurse Practitioners, and Clinical Nurse Specialists:** PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

Nurses in full attendance will earn 6.3 contact hours. Partial contact hours will be awarded for partial attendance.

PESI Inc. is proud to offer this seminar (at these locations only) free of charge (on live seminar tuition) for veterans and active duty military personnel. *Limited seats available; advance online registration required.*
